---

The proposed project aims to introduce a battery energy storage system (BESS) in Mongolia which would enable a more efficient use of local renewable energy resources and improve ...

On June 26, the 1,000 MW / 6,000 MWh power-side energy storage project in Chayou Zhongqi, Ulanqab City, Inner Mongolia officially commenced construction. The project ...

On June 26, the construction of the world's largest power generation-side energy storage project in Ulan Chab, Inner Mongolia, officially began.

The battery storage power station backs up when there is a shortage of power or during peak load and recharges itself when it is not needed, reducing imported electricity usage.
