How is the Asia-Pacific solar photovoltaic market segmented?

The Asia-Pacific Solar Photovoltaic (PV) Market is segmented by product type, end-user, deployment, and geography. By product type, the market is segmented by thin film, multi-crystalline silicon, and monocrystalline silicon. By end-user, the market is segmented into residential, commercial, and utility.

Who are the key players in the Asia-Pacific solar photovoltaic market?

The Asia-Pacific Solar Photovoltaic (PV) Market is fragmented. Some of the key players in this market (not in a particular order) include JA Solar Holdings Co., Trina Solar Ltd, Adani Green Energy Ltd., Azure Power Global Limited, and First Solar Inc. Need More Details on Market Players and Competitors?

How big is the Asia-Pacific solar power market?

The Asia-Pacific solar power market size was reached at USD 133.17 billion in 2024 and is expected to be worth around USD 1,084.32 billion by 2034, growing at a compound annual growth rate (CAGR) of 25.31% over the forecast period 2025 to 2034.

What is the cheapest power source in Asia?

Utility PV emerged as the cheapest power source in 11 out of 15 countries in the Asia Pacific," said Sooraj Narayan, Senior Research Analyst, APAC Power & Renewables at Wood Mackenzie. The new-build solar project costs will drop another 20% by 2030, driven by falling module prices and increasing oversupply from China.

In line with the declining cost of solar power generation, many large-scale projects have been implemented in the historical years in the Asia-Pacific region to promote the demand for solar ...

What you should know about this indicator IRENA presents solar photovoltaic module prices for a number of different technologies. Here we use the average yearly price for ...

Solar energy is the most common, cheapest, and most mature renewable energy technology. With solar photovoltaics taking over recently, an in-depth look into their supply ...

The cost of electricity generated from renewable sources, known as the levelised cost of electricity (LCOE), is declining significantly ...
