---

Explore the step-by-step lithium-ion battery pack manufacturing process, from cell sorting to testing, ensuring safety, performance, and reliability.

The lithium-ion battery module and pack production line is a complex system consisting of multiple major units and associated equipment that work in concert to achieve ...

The production process for Chisage ESS Battery Packs consists of eight main steps: cell sorting, module stacking, code pasting and scanning, laser cleaning, laser welding, ...

The specific steps in the lithium-ion battery pack production process include positive electrode slurry stretching, negative electrode stretching slurry, positive electrode cells, negative ...
