With the support of long-life cell technology and liquid-cooling cell-to-pack (CTP) technology, CATL rolled out LFP-based EnerOne in 2020, which features long service life, high integration, ...

Liquid Cooling Technology offers a far more effective and precise method of thermal management. By circulating a specialized coolant through channels integrated within or ...

EFFICIENT AND DURABLE Industry leading LFP cell technology up to 10,000 cycles with high thermal stability Liquid cooling capable for better efficiency and extended battery life cycle ...

In this article, the temperature equalization design of a liquid cooling medium is proposed, and a cooling pipeline of a liquid cooling battery cabinet is analyzed.
