As this technology becomes commercially available and evaluated in energy system planning, it is imperative that these planning processes be informed not only by the potential grid benefits ...

Published in: 2020 6th International Conference on Electric Power and Energy Conversion Systems (EPECS)

Article #: Date of Conference: 05-07 October 2020 Date Added to IEEE ...

This section will review the current state of the art on the use of mobile energy storage for distribution system resilience enhancement and operation in emergency conditions.

The paper explores Mobile Energy Storage Systems (MESS) as a clean substitute for diesel generators, covering MESS definitions, functional needs, and deployment instances.
