SWA Energy's rack battery provides scalable LiFePO₄ energy storage for residential and commercial use. Rack-mount design, advanced BMS, and long cycle life for solar systems.

Standardized 19-inch racks enable modular expansion, allowing incremental capacity boosts from 10kWh to 1MWh. Advanced systems feature hot-swappable battery drawers for zero-downtime ...

Rack-mounted solar cells provide an excellent solution for off-grid setups and can be used in conjunction with solar panels to create self-sufficient energy systems. The scalability of rack ...

Rack-mounted energy storage batteries significantly enhance the efficiency and reliability of solar power systems. By storing excess energy produced during the day, these ...
