-----

Our composite ground storage vessels deliver compact, efficient, and high-capacity gas storage. Ideal for hydrogen stations, CNG facilities, and renewable energy sites.

With the COSMOS high-pressure system from heiserTEC, we offer a modular solution that is used worldwide in energy projects, research facilities, and industrial applications.

To evaluate the storage alternatives, a techno-economic chain analysis is required. Storing energy in the form of hydrogen is a promising green alternative. Thus, there is a high ...

In the sub-project Mukran of the BMBF-funded flagship project TransHyDE, spherical and nearly spherical-shaped (isotensoids with ...
