Described as a first for West Africa, a solar PV installation with battery storage project dedicated to frequency regulation has been commissioned in Senegal.

"I would like to thank our partners in Senegal, especially Senelec, for their unwavering support since our first investments in 2015. The on-time commissioning of Walo ...

The installation features monocrystalline solar modules mounted on single-axis tracking systems paired with string inverters, ...

Combining photovoltaic solar with a storage system is a unique solution to meet the current and future needs of the grid. In order to complement and ...
