As global demand for energy storage lithium battery chassis surges, Serbia has emerged as a competitive player in manufacturing high-performance battery systems.

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of ...

Serbia's path to a stable, renewable-dominated energy system will be written not only in wind turbines and solar panels but in the batteries that make their power dependable.

UGT Renewables is working with Serbia's EPS to provide a series of self-balanced utility-scale solar projects, including battery storage, to every ...
