Portuguese energy firm Galp and Powin, a US-based energy storage integrator, completed the commissioning and injected the first ...

Two solar-plus-storage projects are among five planned renewable energy sites whose details have been published for public consultation on the Portuguese Environment ...

The batteries will allow Galp to store the solar energy produced in periods of high generation, and to deploy it during periods of high demand, maximizing the energy's value.

In a significant move that underscores Europe's strategic focus on battery production, a EUR2 billion lithium battery factory project has been initiated in Sines, Portugal.
