---

The Tycon Solar Systems UPS-PL1212-18 is an outdoor UPS system with a 12V 18Ah battery. It's designed to be used with solar panels, with 12V PoE and 60W output.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

It is also solar ready so a solar panel can be added as an alternate power source or to extend backup time. Features include an advanced battery charge controller to protect against over ...

The RemotePro PL-SM series (RPPL) outdoor power systems are designed for applications that require a primary offgrid or backup power source to run various electronics.
