AGC's tempered cover glass is designed to withstand impact from hailstones of various sizes and velocities, ensuring that solar panels remain protected even in harsh weather conditions.

With its very high solar energy transmittance, our low iron glass Pilkington Optiwhite(TM) is the ideal cover plate for a range of solar technologies, including Thin Film Photovoltaics, Concentrated ...

This safety glass undergoes intense thermal treatment (think 700°C heating followed by rapid cooling) to become 4-5 times stronger than regular glass. Solar manufacturers love it like ...
