Which solar module shipments will be fierce in 2024?

Competition for third and fourth place in the global module shipments list will be fierce in 2024. According to Trina Solar, its shipments of 50.5GW in the first three quarters ranked fourth in the world, slightly less than LONGi Green's 51.23GW, with a difference of only 0.83GW between the two.

Why are photovoltaic module import shipments not published?

U.S. shipments and sales to the original equipment manufacturer (OEM) for resale and export shipments are not published for certain months to protect individual company data. Table 7. Photovoltaic module import shipments by country Imports at the national level are included in Table 6.

What are the tables in the photovoltaic module report?

The tables in this report are: Table 1. U.S. photovoltaic industry status Table 2. Value and average value of photovoltaic module shipments Refer to Table 3. Refer to Table 3. Table 3. Monthly photovoltaic module shipments This table includes the total shipments, values, and average values of module shipments by year and month.

Do I need to report a monthly photovoltaic module shipment report?

Beginning in January 2017, we required some of the respondents for the annual survey Form EIA-63B, Photovoltaic Module Shipments Report, to report monthly data. The subset of respondents now must report monthly accounts for about 90% of photovoltaic (PV) activity in the United States, based on 2021 data.

Before looking forward to the full-year data, you can first take a look at the shipment data for the first three quarters. Polaris surveyed the data of nearly 20 module ...

Trina Solar's cumulative shipments of 210mm modules exceeded 90GW as of Q3 2023, ranking first globally. By the end of October cumulative shipments of Trina Solar's 210R ...

As the industry's "first tier," their core advantages lie in "globalized layout + supply chain control." Based on the data we obtained, ...
