In this thesis, the incorporation of a storage system with phase change materials in a domestic water heating system was investigated. The system proposed in this work consists ...

To overcome the shortcomings of the existing systems, this paper proposes a focused solar heating system containing phase change thermal storage.

This paper briefly reviews recently published studies between 2016 and 2023 that utilized phase change materials as thermal energy storage in different solar energy systems ...

This article designs a high-altitude border guard post that can fully utilize the heat absorbed by solar collectors to continuously store thermal energy during the day and stably ...
