This paper presents the design, deployment, and performance evaluation of a mobile solar-diesel hybrid energy system deployed by an onshore oil and gas Operator in the ...

Designed for Plug and play operations, the ZSC range of mobile solar power is easy to setup and commission. The compact container is easy to transport and is a low maintenance asset on site.

Finally, electrical parameter remote monitoring and automatic or remote control, combined with data trend monitoring from the host platform, will improve system availability, thereby reducing ...

Traditionally powered solely by diesel generators, this rig was the site of a 5-month pilot project testing the viability of a containerized mobile solar hybrid integrated system in high-demand ...
