The team achieved a high-efficiency transparent solar panel, colorless and as transparent as glass, by introducing a " full back-contact " design. In other words, all ...

An international team of researchers set a record in efficiency for converting sunlight into electricity via transparent solar windows.

Researchers have achieved a historic milestone in solar panel efficiency by creating transparent solar cell windows that could transform ...

Researchers from the CitySolar project have announced an efficiency record for transparent solar cells. By combining organic solar cells with perovskite-based ones, the ...
