The following report from the UK's BBC raises the question in my mind as to the SIG's policy on furthering solar power as renewable energy in the Solomon Islands given the vast tracks of ...

"Solomon Islands currently has one of the lowest levels of access to electricity in the region, with over 85% of the population of Solomon Islands still without access to electricity and for this ...

Solomon Power also supports the installation of small scale grid connected micro embedded generators that convert renewable energy into electricity that can be used in your home or ...

We design our solar systems for Solomon Island's hot temperatures and remote, rural conditions. We only use lithium batteries; quality components from manufacturers like Deye and Victron ...
