What is a solar power plant in South Sudan?

Image: The recently launched 20MW solar energy plant in South Sudan. Credit: Ezra Group A public-private partnership in South Sudan has launched the country's first major solar power plant and Battery Energy Storage System(BESS) in the capital Juba, where it is expected to provide electricity to thousands of homes.

How much power can a 20MW solar plant produce in Juba?

The 20MW solar plant can generate sufficient power to supply electricity to up to 16,000 households in Juba, significantly reducing energy costs and bolstering grid reliability, said the project's developer.

Why is SSEC a success in South Sudan?

The success of this project is largely due to the strategic collaboration with key partners, including the South Sudan Electricity Corporation (SSEC) and the Ministry of Energy and Dams, which oversee electricity generation, transmission, and distribution across the country.

The solar panels continued to generate energy, and the battery storage system stored it for later use. Over the next few days, Mr. Ahmed and his ...

MECH, which stands for, Mechanical, Electrical, Civil Hub, is an Engineering company specialized in Renewable Energy, owned by young passionate ...

The solar panels continued to generate energy, and the battery storage system stored it for later use. Over the next few days, Mr. Ahmed and his family enjoyed uninterrupted power, thanks to ...
