---

In a world where ever-smaller parts are a virtue, Murata Manufacturing has created a multilayer ceramic capacitor that is 0.16 mm x 0.08 mm (006003-inch size). This ...

An ultrathin ferroelectric capacitor, designed by researchers from Japan, demonstrates strong electric polarization despite being just 30 nm thick including top and ...

In 2014, Murata successfully brought to market the world's first 008004-inch size (0.25#215;0.125mm) multilayer ceramic capacitors, which have experienced growing utilization in ...

Our Prismatic Supercapacitors, developed in partnership with CAP-XX, provide high power density in an ultra-thin, lightweight design. These cutting-edge energy storage solutions bridge ...
