What is a port in Suriname?

OVERVIEW: A river port. Handles dry and liquid bulk, containers, reefer, metals, Ro-Ro and breakbulk cargo. The port serves the capital and largest city in Suriname. Facilities comprise the multipurpose Jules Sedney Haven Terminal and several privately operated berths

Where is the first heliport built in Suriname?

It has been the first dedicated Heliport built in Suriname in 2015 at the Gummelsweg in the neighborhood of Kwatta near the city of Paramaribo, Suriname. Privately owned and used by the Gummels family who also own the Gum Air airline and the crop dust service Surinam Sky Farmers.

How long does it take to fold a container?

Folding and unfolding of such containers take only ten minutes and four folded containers are connected or 'bundled' together to form a single unit. These bundled single units are then handled like a single container using normal MHE.

What is a foldable container?

Such foldable containers are compatible with the normal ISO-approved TEU or FEU and are strong enough to be placed anywhere on a shipboard stack. Any number of containers from 2 to 5, can be folded and stacked in such a way to form a regular container size for transport or storage.
