Explore a wide array of communication products at Hebei Mailing. From 4G LTE baseband boards to 5G BBU devices, coaxial cables, and more. High - quality and suitable for various wireless ...

A base transceiver station (BTS) or a baseband unit (BBU) is a piece of equipment that facilitates wireless communication between user equipment (UE) and a network. UEs are devices like mobile phones (handsets), WLL phones, computers with wireless Internet connectivity, or antennas mounted on buildings or telecommunication towers. The network can be that of any of the wireless communication technologies like GSM, CDMA, wireless local loop, Wi-Fi, WiMAX or other
