A US solar industry group has outlined a nine-point policy agenda calling on New York City's incoming mayor to accelerate rooftop solar and battery deployment to address grid ...

Enacted in 2018, Public Service Law (PSL) §74 directed the Public Service Commission (Commission) to establish a statewide energy storage goal and programs that will ...

Analysis results show that resilient PV can be economically viable for NYC's critical infrastructure and that it may be similarly beneficial to other commercial buildings across the city.

To reach the City's carbon neutrality goal by 2050 requires a shift to 100% clean electricity, and widespread solar and energy storage deployment are critical to meeting that goal.
