This research proposes a strategy of onboard auxiliary supply system of light weight train using photovoltaic and battery energy storages. The structure proposed here is to ...

The deployment of solar energy systems not only helps mitigate climate change but also supports the country"s broader ...

According to Ethiopian Electric Power"s Strategic Plan (2021-2030, p. 23), Ethiopia is projected to generate \$400-\$600 million annually from electricity exports through interconnectors with ...

Through the integration of solar PV, wind energy, and pumped hydro-energy storage systems (PHES), we have explored different configurations to optimize the overall system performance.
