ITOCHU has developed a product lineup that meets market needs, from home storage batteries to large-scale energy storage systems for industrial and grid use.

The project is located in Kasama City, Ibaraki Prefecture. The Kasama project will have a capacity of 20 MW / 80 MWh and benefit from the Tokyo Government's subsidy scheme.

The Korean electrical equipment and automation systems company announced yesterday (14 April) that it will deploy the large-scale ...

The Korean electrical equipment and automation systems company announced yesterday (14 April) that it will deploy the large-scale standalone energy storage facility in ...
