What is an uninterruptible power supply?

An uninterruptible power supply, commonly known as UPS Power Supply is easy to install a device that is designed to provide power to your computers, servers, server rooms and data centres in case of main energy failure, electrical surge or unexpected energy cut off.

Should you install an uninterruptible power supply?

Installing an uninterruptible power supply is an excellent way to protect your mission critical systems. However, it is no guarantee of continual power as UPS components and UPS batteries can fail if they are not properly maintained to a high standard.
