A Double Conversion UPS is a powerful tool for ensuring uninterrupted power supply and protecting critical systems from electrical disturbances. Its unique double conversion ...

Multilink's EDP Double-Conversion is an uninterruptible power supply designed to provide high quality, stable AC power to critical equipment that requires continuous, regulated power.

It is programmable to shutdown at a set time (E.g., 5 minutes) or when battery reaches certain percentage level (E.g., 25%). In case you are away, our software safely shuts down the ...

It works by constantly converting incoming AC power to DC and then back to AC, ensuring uninterrupted power delivery. This approach eliminates any power drops and isolates the ...
