---

When a taxpayer or product is zero-rated, the sale is treated as a taxable transaction, but the VAT rate is 0%. Although no VAT is collected or remitted on sales, ...

The Harmonized Tariff Schedule of the United States (HTS) sets out the tariff rates and statistical categories for all merchandise imported into the United States.

Search HTS Codes for USA Home &gt; Search HS Code - USA &gt; HS Code of uninterruptible power supply

In a standby (&quot;off-line&quot;) system the load is powered directly by the input power and the backup power circuitry is only invoked when the utility power fails. UPSs are given a power rating in ...
