As Vanuatu charts its course toward energy independence, the Port Vila Energy Storage Power Station stands as both a technical marvel and a beacon of sustainable development.

The project aims to support the use of solar power and battery storage on the islands of Efate and Tanna, boosting Vanuatu's energy independence and climate resilience.

With 85% of Vanuatu's electricity still generated from imported diesel (World Bank 2023), the Pacific nation faces urgent energy challenges. Energy storage systems (ESS) have emerged ...

A hydropower project that works like a giant water battery, storing enough energy to power 50,000 homes during cyclone season. That's exactly what the Port Vila Front River ...
