---

The new facility, currently known as Factory 2 Works, is expected to be instrumental in supporting Eos' mission to provide safe, cost-effective, and environmentally ...

The project, located in Chateaugay, about 40 miles northwest of Plattsburgh, is the Power Authority's first utility-scale battery project and the first one built by New York State.

The project will be operated by 174 Power Global, in partnership with Con Edison, under the terms of a multi-year contract with Con Edison awarded under a competitive ...

A factory energy storage project refers to a system designed to store energy for later use, primarily utilizing renewable sources for efficiency and sustainability.
