What are GCL solar panels?

GCL is a company that formed the GCL System Integration Technology Co. to facilitate their manufacturing of solar panels. They have been supplying solar panels in Australia for over two years and aim at dominating the Australian Solar market. GCL solar panels are the focus of this discussion.

Are GCL solar panels available in Australia?

While in the Australian market some of GCL's solar panels are approved by the Clean Energy Council - none of the major distributors list their solar panels as available. As at June 2021 none of the installation companies on Solar Choice's platform have GCL solar panels listed as one of their offerings.

What is a GCL solar warranty?

The product warranty is designed to cover manufacturing faults in the panel that leads to damage or malfunction and is typically 10 years for most solar panel manufacturers. All GCL Solar panels offer a 10 year standard product warranty which is effectively the minimum expectation of the solar panel market.

Why were GCL solar panels de-listed from the CEC Approved Product List?

On 19 December 2018, all GCL solar panels were de-listed from the Clean Energy Council's Approved Product List due to the existence of components detected in the testing which was outside the scope of the modules' certificate. This appears to have been quickly resolved by GCL as they were back on the CEC Approved Products List on January 3, 2019.

GCL Technology Holdings Limited is a global pioneer in the research, development and manufacturing of high-efficiency photovoltaic materials.
