What is a 1600A switchboard?

A switchboard can be a piece of hardware that makes or breaks your electrical system, so it's important to get the one that's right for you. If you've been shopping around for switchboards, chances are you've come across 1600A switchboards, as they are some of the most common configurations and common modular switchboard designs.

What type of switchgear is available?

Our metal-enclosed switchgear is available from 5kV-38kV, with flexible build/component options, the ability to add on to existing switchgear. Ideal when underground distribution systems must be sectionalized with protected taps. SPS fuse gear available through 35kV in single and three phase configurations, for loop feed and radial circuits.

How do I contact switchgear power systems?

Call us on 920-582-7277 or send us a message with questions or a potential project. Switchgear Power Systems manufactures custom switchgear and electrical power distribution equipment. Explore our range of switchgear products.

Can you build a custom switchgear?
