The new materials of wide bandgap (WBG) semiconductors, for example, gallium nitride (GaN) and silicon carbide (SiC), provide remarkably distinct characteristics of ...

With the launch of volume production of the high voltage inverter brick in Tianjin, China, Schaeffler has reached an important milestone in its electrification strategy.

NREL with SolarCity and the Hawaiian Electric Company (HECO) completed preliminary work conducted at ESIF demonstrating the ability of advanced PV inverters to mitigate some ...

Abstract: This article presents a wide input voltage range switched-capacitor multilevel inverter based on an adjustable number of output levels. Through different modulation strategies, the ...
