For most cases, having a cell phone tower on the roof of your building, will create a shadow zone immediately underneath it. We would try to explain this with a diagram.

In this case, report two previously healthy persons, a man aged 63 years and a woman aged 62 years, developed symptoms of the microwave syndrome after installation of a ...

While these installations promise faster connectivity, they also raise legitimate concerns about radiofrequency (RF) radiation, long-term health effects, and home safety. ...

A 2020 analysis of a proposed 5G network in downtown Austin, Texas, suggests that adding cellular base stations that utilize the higher frequency millimeter-wave (mmWave) ...
