---

Hillcrest's ZVS inverter architecture is purpose-built to complement and enhance wide bandgap devices. By switching only when voltage is near zero, our technology dramatically reduces ...

Hillcrest Energy Technologies announces that its Zero-Voltage Switching (ZVS) traction inverter prototype demonstrates superior cost efficiency for EV manufacturers.

The project is all about evaluating Hillcrest's Zero Voltage Switching (ZVS) technology for next-generation EV inverter applications. If this technology lives up to its hype, ...

Hillcrest Energy Technologies Ltd. has completed the first commercial prototype of its Zero Voltage Switching (ZVS) traction inverter, which the company said is lighter, faster and ...
